NATIONAL COASTWATCH INSTITUTION

Rossall Point

Come along to the next meeting of Rossall Beach Residents & Community Group on Wednesday 1st April to find out all about the NCI which is an entirely voluntary organisation, keeping a visual watch along our shores.

NCI Rossall Point commenced operations in 2008 in the old Coast Guard tower, before moving to the new modern tower, built by Wyre Council. There are nearly 50 volunteers who give up their time to ensure that vulnerable people, vessels and activities, such as kayakers and wind surfers, are made safe by visual surveillance. They train at both Fleetwood Nautical College and on site in the tower.

This interesting visual presentation, given by volunteers, is open to everyone - no need to be a member of the group.
